

good housekeeping

Dear Reader,

Good Housekeeping is a proud supporter of RainPro and is pleased to tell you they have received the Good Housekeeping Seal after passing a series of rigorous tests performed by the Good Housekeeping Institute.

The RainPro gutter system gives your home added beauty, while giving you real peace of mind. The key to RainPro's uniqueness is that it is a large capacity gutter system that creates maximum water flow, giving your home ultimate protection and real curb appeal.

Its unique, architectural styling was designed to complement the look of today's homes without having to resort to a bulky looking gutter system. And you'll love the way your house looks with RainPro gutters, and how good you'll feel. Especially when it rains.

Some of the benefits of the RainPro System include:

BETTER DESIGN Each component of the RainPro system, from the miters and end caps to the hidden hangers, was designed to achieve a totally refined look. RainPro's unique architectural profile looks like part of your house, and not something that was added on.

CUSTOM FIT All RainPro gutters are seamless. They are custom formed and cut to exact dimensions at your home to ensure a perfect fit.

MAXIMUM FLOW AND STRENGTH RainPro has a larger than standard gutter bottom and downspout that helps remove more rain water from your roof with gutters and downspouts that are made from a heavier gauge metal than standard gutter systems.

COLOR CHOICES AND SCRATCHGUARD™ FINISH RainPro is available in a wide range of designer colors and is protected by Englert's ScratchGuard paint finish, specifically designed to resist scratches and stains. (RainPro's gutter system is protected by Englert's exclusive ScratchGuard paint finish, which comes with a limited lifetime warranty.)

In business since 1966, Englert® pioneered the design and installation of seamless gutters. Today, Englert designs and produces an array of innovative metal roofing products and residential gutters, including LeafGuard®, Gutter Tunnel and RainPro.

Let it rain with RainPro!

Sincerely,

Patricia Haegele
